

# Rensselaer County Farm Fresh Product Guide

Rensselaer County farmers grow a variety of food and plants that are available at farmstands, farm stores, farmers' markets and CSAs throughout the county. Several farms in the county offer Community Supported Agriculture (CSAs). When you purchase a CSA share, you receive farm fresh products throughout the season directly from the farmer. Another option to purchase locally grown is by visiting your local farmers' market. When you purchase from family farms, you provide opportunities for farmers to survive and thrive in Rensselaer County. Buy farm fresh products and keep farms growing in Rensselaer County.

Due to the coronavirus, businesses have changed how they are doing business to ensure the health and safety of the general public. Farms and farmers' markets are required to follow strict guidelines as stated on the NYS Department of Agriculture and Markets' website at <https://agriculture.ny.gov/coronavirus>. Many farms have expanded their services to include curbside pick-up, online ordering and delivery services.

Farms, farmstands, farms stores and farmers' markets are adhering to strict safety protocols, therefore customers must adhere to the guidelines outlined by the NYS Department of Health. For more information, please visit <https://coronavirus.health.ny.gov/home>.

If you would like your farm included in the guide, please contact Rensselaer County Economic Development & Planning at 518-270-2914 or [dmurray@renesco.com](mailto:dmurray@renesco.com).

This product guide was created by Rensselaer County Economic Development & Planning and is for general informational purposes only. All information in the guide is provided in good faith, however Rensselaer County makes no representation of any kind, express or implied regarding the accuracy, adequacy, validity or completeness of any information in the guide.
