

VEHICLE CRASHES ARE THE NUMBER ONE CAUSE OF DEATH FOR PEOPLE BETWEEN THE AGES OF 16 AND 24.

The National Safety Council, a leader in driver improvement for more than forty years, developed **Alive at 25** to specifically target drivers in this age group.

- Since 1995, more than 400,000 young adults have learned lifesaving defensive driving skills through **Alive at 25**.
- Courts and schools nationwide use **Alive at 25** in their graduate license and violator programs.

This highly interactive 4-hour program teaches young drivers between the ages 16 and 24 to take responsibility for their driving behavior.

Skill practices and on-the-spot defensive driving techniques help change bravado to confidence.

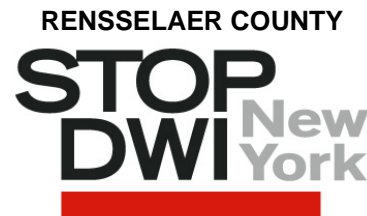

Our **Alive at 25** instructors use personal examples and even humor to get their point across. They use workbook exercises, interactive media segments, group discussions, role playing and short lectures to help young drivers develop convictions and strategies that will keep them safer on the road.

Alive at 25 teaches young adults that:

- People in their age group are more likely to be hurt or killed in a vehicle crash.
- Inexperience, distractions and peer pressure cause unique driving hazards.
- Speeding, alcohol and party drugs greatly increase their risk of serious injury or death.
- As a driver or as a passenger, they can greatly reduce their risk by taking control.
- Committing to change their driving behavior makes personal, legal, and financial sense.
